CONCRETE BUCKETS

Galvanized concrete bucket

C-ZN Model

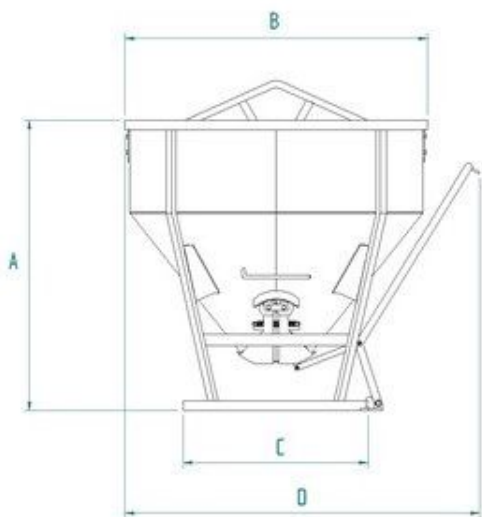

LONG-LASTING QUALITY

Designed by buckets experts, this range of concrete galvanized buckets offers you the best solution for your construction site. This model is a high-quality product that maintains its characteristics over time thanks to the **hot-dip galvanization process** that forms a coating of corrosion-resistant zinc which prevents corrosive substances from reaching the more delicate part of the metal. This **bottom discharge** bucket is characterized by a **cut height** to facilitate the loading process. The auto-closing spring gate system and the lever opening guarantee an excellent dosage and unloading control, providing an easy and safe work.

This model is manufactured in many different capacities as listed below. For a more accurate placing of concrete we offer also the bucket model CL-ZN with side chute. Both these models are available also painted.

All our concrete buckets are built to meet or exceed the regulations of EN, ASME and UNI and come with the required labels, certificates and user and maintenance manual. All our products are covered by a 1-year warranty (EU Directive).

MODEL	CAPACITY (Lt)	DIMENSIONS (mm)				CAP. (kg)	WEIGHT (kg)
		A	B	C	D		
C-15ZN	150	540	920	750	1050	390	50
C-20ZN	200	620	920	750	1050	520	55
C-25ZN	250	700	920	750	1050	650	58
C-30ZN	300	780	920	750	1050	780	63
C-35ZN	350	860	920	750	1050	910	68
