BOAT SKIPS

Self discharging boat skip

A-D Model

YOUR NEW RIGHT-HAND MAN.

We offer our customers this range of boat skips with self dumping system, used for general muck and waste removal. These high quality skips guarantee an easy and safe work as they empty automatically without the help of any assistant. This special and modern system of release eliminates the risk for the operator to enter the danger zone where the bucket is working. The low loading height and drop down bale arm make the filling process very easy. This product is manufactured in an extensive range of sizes as listed below. Boscaro produced one of the largest under-hook self dumping bins of the World: Check it [HERE!!](#) This model is available also galvanized. The galvanization process gives the bucket a higher quality and a longer life, as it forms a coating of corrosion-resistant zinc which prevents corrosive substances from reaching the more delicate part of the metal.

All our buckets are built to meet or exceed the regulations of EN, ASME and UNI and come with the required labels, certificates and user and maintenance manual. All our products are covered by a 1-year warranty (EU Directive).

MODEL	CAPACITY (Lt)	DIMENSIONS (mm)							CAPACITY (kg)	WEIGHT (kg)
